⚠ WARNING Before playing this game, read the Xbox 360® Instruction Manual and any peripheral manuals for important safety and health information. Keep all manuals for future reference. For replacement manuals, see www.xbox.com/support or call Xbox Customer Support.

Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

VIDEO GAME WARRANTY

This video game carries a warranty conforming to the laws of the country in which it was purchased, and valid for a duration of not less than 90 (ninety) days following the date of purchase - (proof of purchase required).

The warranty is not valid in the following cases:

- 1/ the video game was purchased for commercial or professional use (all such uses are strictly forbidden)
- 2/ the video game is damaged due to incorrect handling, accident, or improper use by the consumer.

For further information concerning this warranty, the consumer is invited to contact the retailer that sold the game, or the hotline at the video game publisher in the country the game was purchased.

This game can only be played if your Xbox 360 console is set to PAL-60.

To set the display to PAL-60

1. In the Xbox 360 Dashboard, select the System blade.
2. Select Console Settings and press **A**.
3. Select Display and press **A**.
4. Select PAL settings and press **A**.
5. Select PAL-60 and press **A**.
6. When prompted if you want to keep these new settings, confirm and press **A**.

Note that some older TV sets do not support PAL-60. If you are in doubt consult your TV manufacturer.

SOMETHING IS ABOUT TO HAPPEN...

The 843 acres of Central Park are hiding a terrible secret. Built in the mid 19th century by an international cartel of influential men, the park was created to provide a safe haven. But not, it seems, for the people of New York. Something of a different nature entirely is being protected. Succeeding generations of guardians have protected the truth, keeping the vast parkland untouched at all costs, while the most powerful and expensive city in the world reaches skyward. Now the truth can no longer be contained.

SAVING

The save feature used by Alone In The Dark can be accessed either in the Main Menu or by pressing  and scrolling to the save option from the Pause Menu. Make sure that you have at least 4.5 MB of free space before starting the game.

Family Settings

These easy and flexible tools enable parents and caregivers to decide which games young game players can access based on the content rating. For more information, go to www.xbox.com/familysettings.

ALONE
IN THE
DARK

TIPS

During your first steps in the adventure, tips will be displayed on screen to help you familiarize yourself with the game.

MENUS

MAIN MENU

Continue: Continue an existing game.

New Game: This is the only way to know...

Episodes: From here you can access all the sequences of the adventure.

Options: Choose Options from the Main Menu or the Pause Menu to adjust various game settings.

Credits: see all the people who worked on the game.

PAUSE MENU

Options: Choose Options to adjust various game settings

Save Game: Save your game progress.

Load Game: Load a saved game.

Quit: Quit the game and return to the Main Menu.

Use the left stick or directional pad to switch from the Pause Menu to the DVD Chapter Interface.

DVD CHAPTER SELECT

Give you access to any episode directly from the Pause Menu.

DVD CHAPTER INTERFACE

LB and **RB**: allows you to skip from one sequence of an episode to another.

LT and **RT**: allows you to skip from one checkpoint to another within the same sequence.

Press **A** to load the sequence or checkpoint you have selected.

INVENTORY & OBJECTS

Need something? Search deep in your pockets, you'll probably find it. Press the directional pad down to access the Inventory. Use the left stick or directional pad to look for what you need. To take an object, move the pointer next to it, and press **A**. Press the directional pad down to exit the inventory.

It is possible to take items in both hands to use or combine them together. (Try the spray combined with the lighter.)

A quick-draw system lets you rapidly rotate between the items that are in your inventory: right bumper for an item in the right hand; left bumper for an item in the left hand.

It is possible to store your favourite combinations to use at any time. In the inventory, enter or select the combo for which you want to create a shortcut. Press the directional pad up, then press the button you want to attribute to the combination.

Once outside the inventory, you can activate your combination by pressing the directional pad up, then pressing the button you attributed to the combo.

PDA

Very useful, it can be opened by pressing the BACK button. It contains information on your current objective and gives you access to different functions. Use the left stick to access the different functions:

Phone: Dial a number to contact someone.

Contacts: The phone numbers of people you have met are stored here. Choose a number and it will dial automatically.

GPS: Displays the map and objectives.

Parameters: Here you can configure the settings for your PDA functions.

Messages: You cannot always receive direct calls. The advantage of messages is that you can return anytime to read information you may have forgotten.

BEING INJURED

When you are badly injured and losing blood, a countdown appears in the corner of the screen. If you do not heal yourself in time, you will soon die. To heal wounds ranging from superficial to haemorrhaging, look for health sprays or bandages and use them carefully. These are the only means of dressing and healing your wounds that are available to you. Select either the spray or the bandage from the inventory, then, once you have quit the inventory, press directional pad right or left to pass into first-aid mode and start taking care of your injuries. If you have several wounds, use the left stick to select the wound and press the right trigger to heal. Press the directional pad right or left to exit the first-aid mode.
